MINER

Safe CHECK
A New Way To Survey

Miner's Safe CHECK Survey App Puts You on the Path to a CONSISTENT SAFETY COMPLIANCE PROGRAM

DO YOU DEAL WITH ANY OF THE FOLLOWING:

- Busy loading docks with a lot of traffic and material handling equipment
- Incidents of premature trailer departures
- Problems with overloaded forklifts and lack of training
- Issues with Dock Shock and Leveler/Dock Plate safety
- The need for pedestrian/traffic segregation procedures
- Warehouse column and door protection via protective barriers and bollards
- Requirements for inspections and preventive maintenance

The **Safe CHECK** Survey App Will Help You Proactively Address All These Concerns and MORE.

For a full list of all OSHA Safety Considerations visit:

Every 3 days someone is killed in a forklift related accident with 220 accidents happening per day in the USA.

25% of all industrial accidents occur at the loading dock according to the American Supply Association.

110,000 injuries were reported in 2018 specifically related to forklift and loading docks alone.

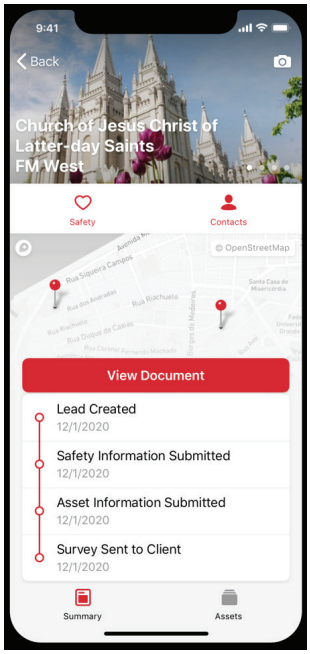
70% of all reported accidents could have been avoided with proper safety precautions.

$135 MILLION in immediate costs are incurred due to forklift accidents with another **$100 MILLION** in fines by OSHA since 2015.

**** Data provided by OSHA and O&M Best Practices Guide, Release 3.0***

OUR SOLUTION

How it **WORKS**



Capture Asset Information

The Safe CHECK Survey Application can easily create an inventory of the fixed assets in a facility.

A technician starts by downloading the app from either the IOS App store or the Google Play store to begin the process.

After that, the user selects the correct asset type and begins using the app to collect all relevant data for the item.

Entering Data

Once the asset is selected, the relevant fields are pre-sented to the user.

Data entry is made easy by the app's use of drop-downs, sliders and text box controls.

Additional Categories of Information that can be Captured:

- Photos & Video
- Maintenance
- Warranty
- Safety

MINER®

BENEFITS of Safe CHECK

- Facilitates a Consistent Safety Compliance Program
- App Based Facility Safety & Productivity Assessment
- Maximize Budget Spend & Lower Total Cost of Ownership
- Documented Plan of Action
- Monitor equipment for Optimal Efficiency & Prolong Life Cycle
- Track Warranty, Proactive Maintenance & OSHA Awareness
